“ *The world lost a great lady. A teacher who impacted so many students. Her love for biology and teaching was evident in everything she did. I had the honor of having her for Honors Biology and A P Biology (20+ years ago). I was also a lab aide and an officer with Para-Med. I was able to visit her at her home and see her vast collection of cherished butterflies. I offer my condolences to her family. She was an amazing woman whose stories and enthusiasm for science left a lasting impression. She will be missed.*
